

COVID-19 ADVISORIES

This is a list of advisories we recommend when using the venue for group activities or meetings.

- Wearing of masks where possible
- Pre testing for COVID-19 of all attendees where possible
- Checking attendees after the event for any possible transmission of COVID-19

Sefton CVS will provide hand sanitiser and cleaning spray and wipes for use during and after the event.

The facilities will be provided clean and safe prior to the event and cleaning will be carried out after the event. Additional cleaning charges will be incurred for ensuring the building is safe for staff and visitors of the centre after the event.

If you are aware of anyone who attended your event and tested positive for COVID-19 after the event I would be grateful if you could let me know.
